

## Free Must-Have Google Cardboard Apps

**DinoTrek VR Experience** - Follow different dinosaurs as the camera flies over the action. This is more of a story than a stand-still activity, but it can be played as many times as you wish. Every time, you can turn a different way and see something new. [iOS](#)

**Discovery VR** – Wonderful 3D videos on a wide variety of subjects. [Android](#)

**Google Cardboard App** – This [Android/iOS](#) app lets you:

- Fly where your fancy takes you on Google Earth
- Examine cultural artifacts from every angle
- Visit Versailles with a local tour guide

**InMind VR** – This app will take you on a journey into the patient's brains in search of the neurons that cause mental disorder. This experimental project made by Nival is an awesome way to navigate into a human brain in virtual reality. [Android/iOS](#)

**Lanterns for Google Cardboard** – This beautiful app gives you a night view of the Lantern Festival celebration. [Android](#)

**New York Times VR Stories** – Access richly-immersive stories from across the globe. [Android/iOS](#)

**The North Face: Climb** – Experience the thrill of rock climbing and base jumping with two premiere athletes. [Android](#)

**Orbulus** – This app lets you visit Mars, the Salt Flats, Hong Kong Harbor, and more. [Android](#)

**Polar Sea 360** – A 10-part television series that follows sailors, scientists, hunters, and artists on a journey through the Arctic's Northwest Passage. [Android/iOS](#)

**Tilt Brush Gallery** - View creations made with Tilt Brush, a painting application made for virtual reality. Load pre-made sketches and watch them draw in as they were originally created. [Android](#)

**Titans of Space Cardboard VR** – This is a short guided tour of the planets in our Solar System and a few stars. [Android](#)

**Tuscany – Beenoculus** - Explore the quaint Tuscan countryside. This might be useful to visualize Italy when reading books or studying history. [iOS](#)

**VR Cave** – Fly through this beautiful cave deep underneath the earth. [Android](#)

**VR Safari** – How many animals can you identify on safari? Use this app for studying about animal habitats or for counting, grouping, or identifying animal characteristics. [iOS](#)

**Vrse** - Vrse is a very interesting story-telling application. It shows you sweeping landscapes and graphics while you listen to stories. [Android/iOS](#)

**VRStories** - Put yourself in the middle of newsworthy American events including historical, sports, and human interest stories from Gannett. [iOS](#)

**The Wild Within** – This app lets travelers experience the coastal wilderness of British Columbia, Canada. Choose from two distinct paths: one explores the coastline, while the other heads up into the alpine to explore glacial waterfalls. [Android](#)

**YouTube** – You can watch [some YouTube videos](#) in 360.

**YouVisit VR** – This app lets you step into exotic locations like Machu Picchu; browse leading colleges and universities, including Harvard and Yale; and become immersed in breathtaking live events like TomorrowWorld. [Android/iOS](#)
